

English

Our English topic will be focused around the book 'The Jungle Book' as children will be exploring stories from another culture. The children will explore the characters, setting and plot through drama activities, group collaboration and practical tasks alongside their basic skills and sentence work. The children will work towards writing their own story from another culture and an information text on animals in the jungle.

Geography

This half term children will be exploring hot and cold places. We focus on the Amazon rainforest and the Arctic. We will then delve deeper into both places and compare the physical geography focusing upon the weather, temperature, surroundings and animals.

Maths

During this half term we will be concentrating on number. We will first work on doubling, halving and division. We will then return to our work on number bonds and will focus on our number bonds to 9, 10 and 20. We will also explore measure, time and money through this in a variety of problem solving contexts.

R.E/PSHE

During R.E. we will be exploring Easter. Throughout PHSE we will be following the scheme Jigsaw.

Year 1 Home/School Sheet

Computing

During computing this half term we will be exploring problem reading and real world tech. We will create a bar graph about rainforest and Arctic animals.

Science

During science this half term we will be looking at animals. We will explore name and identify a variety of common animals from each classification; amphibians, reptiles, birds, fish and mammals. We will identify characteristics of these animals to support the identification process.

Art

We will be looking at mono printing. We will begin by exploring work and techniques by the artist Lynda Goldberg. Children will then design and make their own mono print with the theme of nature.

Music

We will be exploring rhyme in the way we walk and banana rap. We will be completing a variety of practical activities.
