

# Early Years Knowledge Organiser Summer 1

## Let get growing!

### What we already know:

I used to be a baby and I have grown into a big boy/girl.

I have a birthday each year and I grow bigger and older.

When people grow older they change.

Plants and animals grow.

We need to exercise, eat healthy food, drink water, brush our teeth and clean our hands to stay healthy.

### Words that will help me:

 grow Grow	Something that gets bigger and changes over time	Mini beast	Small creatures such as worms, snails, insects and spiders.
 Seed seed	can be planted and turn into a flower or plant	Beetle, bee, job, make, fly, legs, wings, habitat, growth decay change, similarities, differences	
 Water water	used to help plants and vegetable, animals and insects to grow	Chick	Newly hatched bird
Soil/compost	used to plant seeds and to grow	Ducking	Baby duck
Lifecycle	Stages living things go through	Egg, hatch, incubate, warm, care, feed, feathers, grow, change	

### What we will find out:

People, plants, animals and insects all grow and change.

People, plants, animals and insects all need food and water to grow and stay healthy.

All living things are important and have their own jobs to do e.g. bees make honey.

Seeds and bulbs grow into plants, flowers and trees.

Fruit and vegetables grow, on plants and trees and in the ground.

### Some Stories we might read:
