

Parents' Guide to Remote Learning during the COVID-19 Pandemic
Leamington Community Primary School
Updated - September 2020

Your child's education is vitally important and learning at home is essential in ensuring your child does not fall behind in his/her education. The school has a duty to ensure there is a seamless continuation in your child's learning even if they are told to isolate for 14 days.

Therefore, if your child's kingdom is forced to close due to a Covid-19 outbreak the following procedures will be put in place;

1. Unless your child is unwell (you must phone school to report if they are unwell) they are expected to complete one maths lesson, one English lesson and one phonics/spelling practice every day. Over the course of the week they will be expected to complete two science tasks and one task for each of the other subjects.
2. You will be required to register for Class Dojo if you haven't done so already. This is easy and we have provided a guide below.
3. We will be using Class Dojo to set the work on a daily basis. This will involve pre-recorded videos of the teachers explaining the learning and links to the resources needed. To access Class Dojo you only need to use the Internet. (Google Chrome works well)
4. Your child/children will be expected to complete the task and submit their work by the end of each day. Feedback will be given by the teacher/Learning support officer.
5. Your child/children will be given reading books and times table sheets. These are to be worked on every day.
6. Other challenges and tasks will be set by the teacher and you will be expected to complete these task.
7. Links to other resources will be made available but completing the task set are the first priority.
8. The messaging system on class dojo will be used as the main form of contact.
9. Safeguarding/wellbeing calls will be made by the inclusion team.

When isolating you must not leave the house. Isolation means staying in and not leaving the family home unless it is vita i.e. Work. If anyone in the household is displaying symptoms of COVID-19 (new continuous cough, temp of 37.8+ and a loss of taste or smell) the whole family must isolate for 14 days. You must not mix with any other household. We recommend sticking to normal routines and the children should be up as normal, washed, dressed and fed before completing the tasks set. Bedtimes should not change and this time shouldn't be seen as time off.

We will be providing meals/food for children who are eligible for Free School Meals and where possible we will be providing laptops/iPads for some FSM children. These machines will remain the property of the school and must be returned when the isolation period is complete.

At the end of the 14 day isolation period you will be expected to bring your child back to school if they are fit and well. During the isolation period school will ensure all areas continue receive a deep clean.

If you have any questions regarding this guidance please message the class teacher, email the school or contact us on Facebook.
