

English

Our English topic will be focused around the book 'Whatever Next'. Children will be looking at and exploring recounts and there will be huge focus on phonics throughout this half term. Children will be travelling to space through storytelling.

History

This half term children will be exploring significant figures. Children will look at Neil Armstrong and the Wright brothers whilst comparing the affect the Wright Brothers had on Neil Armstrong and the impact their invention has made on the world today.

Maths

During this half term we will be continuing our learning of time before concentrating on number. We will first explore place value focusing on numbers between 20 - 50 and 50 - 100. We will then move onto counting in multiples of 5 and 10. Following on from this we will then move onto solving simple problems.

R.E/PSHE

During R.E. we will be exploring Jesus the Miracle worker. Throughout PHSE we will be following the scheme Jigsaw.

Year 1 Home/School Sheet

Computing

During computing this half term we will be exploring digital media pop art.

Science

During science this half term we will be looking at animals. We will explore name and identify a variety of common animals from each classification; mammals, herbivores, carnivores and omnivores. We will identify characteristics of these animals to support the identification process.

Art

We will be exploring pop art this half term. Children will be looking at Andy Warhol. They are going to explore his art work and then create their own space themed pop art.

Music

We will be exploring the theme of round and round.

PE

**Year 1: PE day is every Tuesday (GC)
and Thursday (LK)**
