

English

We will begin our half term by watching a visual text called 'The Piano'. This will begin our film narrative topic. The piano is a short visual that creates atmosphere and mood. We will be exploring the film through drama and identifying film techniques that directors use to ignite emotion. Prior to this, we will make predictions and ask questions about what we believe to have happened. Further to this, we will put ourselves in the shoes of the pianist and see how he experiences main events in his life.

History

The English civil war

To begin our topic about the English Civil War, we will look at the Roundheads and Cavaliers. We will look at how Oliver Cromwell led his army and parliament. We will then look into the execution of Charles I and the impact that had. We will finish our topic by looking at the Great fire of London and the diary of Samuel Pepys.

Maths

We will begin this half term by starting our measures topic. We will look at how to convert between different units of measure and look into imperial units. After that, we will be finding the area and perimeter of rectilinear shapes. Finally, we will then be exploring 3D shapes and their properties.

R.E

Christianity

We will be exploring less familiar stories of Christianity. We will explore different aspects of the Christian faith by meeting characters including Daniel and John the Baptist.

Year 5 Home/School Sheet

PE

PE lessons with LSSP will take place Thursday afternoon. The topic we will be looking at is Gymnastics. Children will begin with some basic rolling and move on to creating balances with their partners and creating sequences.

Remember a healthy snack for playtime.

Science

Children will be learning about the life cycle of an adult. They will focus at first on the gestation period and what happens as a foetus. Further to this, children will explore the foetal development in humans. Then, children will look at the life cycle of a human and the life span of different periods dating from being a baby to later adulthood. They will look at the different physical changes that will occur and why they occur.

Art

This half term we will be creating a mood board to tell the story of the piano. We will use a range of media to create a collage including photo editor and skills such as layering and slicing.

Computing:

In this unit, children will develop their understanding of computer systems and how information is transferred between systems and devices. Learners will consider small-scale systems as well as large-scale systems. They will explain the input, output, and process aspects of a variety of different real-world systems. Learners will also take part in a collaborative online project with other class members and develop their skills in working together.
