

English

This half term we are basing all our work around the narrative of Perseus and Medusa. The children will be describing settings, heroes and monsters from famous Greek Myths. This will culminate in them writing their own version of a Greek Myth where they will create all the elements.

Our unit of work on play scripts will be used to retell the Greek myths and Legends.

Maths

In maths this term we will continue to look at time in which children will learn how to read the time to the nearest minute on an analogue clock. We will then progress to shape, we will create shapes in different orientations and investigate their properties using vocabulary such as vertices, edges, angle etc

As always, we ask that children continue to learn their times tables at home.

History

Ancient Greece

This term the children will investigate Ancient Greece. The children will research both Ancient and Modern Greece. We will be locating the country on the globe and discussing the range of islands. We will also be looking back into Ancient Greece and how it has affected our world today. We will look at Greek artefacts and discuss what they can tell us about how they lived in the past.

What you can do at home:

Research Ancient Greece using the Internet, books or travel brochures. Talk about how artefacts tell us about the past.

R.E **Islam**

During our RE topic, we will be looking at Islamic rites of passage. To begin with, we will look at the five pillars are. We will then move on to look at Muslim birth ceremonies and naming days. Further on in the topic we will look at marriage and funeral ceremonies.

Year 3 Home/School Sheet

Summer 2

Science

Our topic for science this term we will focus on 'Scientific Enquiry' takes children through six lessons where they learn the scientific skill. The children will ask relevant questions, use different types of scientific enquiries to answer them and set up simple practical enquiries, comparative and fair tests

Art:

Art this half term is connected with our history topic of Ancient Greece. We will be planning and creating our own mythical beasts using clay. These will then be converted into large sculptures made from found materials that we can display around school.

Music

Children will access music skills through the use of Charanga.

PE

Year 3 will have swimming on Wednesday

Computing:

Problem Solving and Real World Technology

This unit focuses on the Problem Solving aspect of the new Curriculum, through using the Lego Digital Designer Software to create a model of an Ancient Greek Building.

The Liverpool museum has a fantastic Ancient Greece exhibition full of facts and information.
