English

In English we will continue to follow the RWI scheme in our phonics learning. Our narrative will be focused around the traditional tale of 'Little Red'. During the half term we will be making predictions, generating vocabulary and constructing sentences. The children will learn to re-tell the story through actions and following a story map. We will then learn and recite a poem linked to our narrative and 5 senses.

Geography

This half term children will be exploring Our Local Area. As part of our topic we will go on a walk around our local area, using maps to locate points of interest and will follow routes. We will also discuss how we can develop our local area and our school by suggesting improvements.

Maths

During this half term we will be concentrating on number. We will continue to focus on our number bond knowledge through practical activities and will then onto problem solving. We will incorporate shape, time, weight and money across our number bond tasks. We will then move onto furthering our number knowledge and addition skills.

R.E/PSHE

During R.E. this term we will be exploring 'Why do Christians give gifts at Christmas?'

Throughout PHSE we will be following the scheme Jigsaw and celebrating differences.

Year 1 Home/School Sheet

Computing

During computing this half term we will be using the Code & Go Robot Mouse to programme and move the robot. We will focus on four moves and create different routes.

Science

During science this half term we will be looking at everyday materials. Children will name objects and the materials from which they are made. They will also explore their properties. We will carry out an experiment at the end of term to find the most appropriate material for Little Red to use when making a new cloak.

DT

We will be creating a 'Moving picture Christmas card'. Children will be experimenting with a range of materials then designing, evaluating and creating their own moving picture Christmas card.

Music

We will be exploring the topic 'Rhythm in the way we walk' in music and will be completing a variety of practical activities. We will find the beat, pulse and learn new songs.
